

Address Printer
Versatile Address & Graphics Printing Solutions

5 Questions to Ask Before Selecting Your Addressing Solution

1. Printing Type & Quality

Do you need to print in black, spot color or process colors? What type of printing quality are you looking for?

2. Printing Coverage

Do you need to print on the entire surface of the envelope / document or only on restricted areas?

3. Nature of the material you need to print on

Do you need to print on thick or standard material? What is the size of the envelopes / documents that you want to print on?

4. Productivity & Volume

What level of productivity are you looking for and what is the actual volume of documents you plan to print?

5. Mailroom Integration

Are you looking for a stand alone printer or a solution that can fit into an existing production line?

AS-SERIES

Highly Efficient Printing Solutions

When you invest in a mailing to clients and prospects, you want it to have the best possible impact and the highest chance of a response. Neopost's AS-Series offers outstanding quality across its extensive range of printing solutions, designed for office mailrooms as well as larger mailhouses.

These innovative, flexible solutions print variable data such as addresses, customized messages, logos/graphics or coding directly on the documents or envelopes. With high speed and capacity printing solutions, professional and personalized mail is processed faster and reaches your customer sooner. Costs are reduced with higher efficiency, better Postal Service savings and greater in-house control of your mail output.

We provide a full range of solutions, no limitation for creativity and flexibility.

Save Money and Improve Efficiency

No more need to buy and stock labels – and the manpower required to stick them on paper. Addresses & messages will be printed directly onto the envelope or document.

No more duplicates or inaccurate addresses allowing you to reduce mail returns and therefore unnecessary mail costs.

Produce a higher volume of mail faster and benefit from Postal Services volume discounts. In fact, an AS-Series solution installed in an average business mailroom will pay for itself in just a few mailings!

A Better Response Rate & Impact for Your Mail

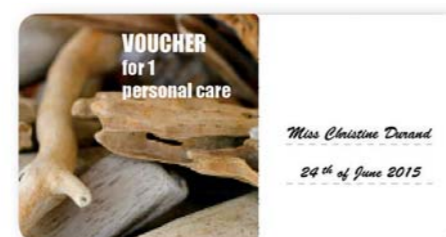

- Turn your envelopes & documents into a medium for **targeted and personalized messages**.
- This in-house solution enables you to change your marketing messages as often as you like or **make last-minute changes with ease**.
- A professional and accurately addressed envelope is far **more likely to be opened** than one that looks dull and is badly addressed or sent in duplicate.

AS-970C Mach5

Professional Look

The very latest inkjet printing technologies ensure an absolutely professional image, every time.

Add Color to Your Communications

Improve the impact of your communications and increase your opening rate by printing colorful graphics & messages on your envelopes or main documents.

Ease-of-Use

The AS-Series is easy to install without major IT involvement. Just load the "Plug'n'Play" driver onto your computer and within a few minutes you're up and running.

As a complement, the AS-Series mail management software will optimize your mail preparation and printer's capabilities.

Added Security

There is no need to hand your database over to a third party. All mailings can be handled internally with an address printer allowing you to manage your customer and prospect databases internally bringing added security.

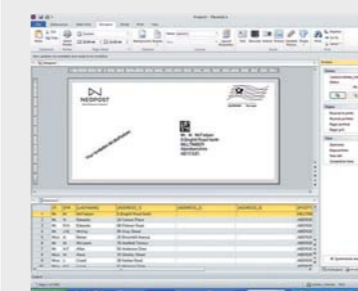

For All Types of Materials & Messages

Creative and personalized solutions for:

- All formats of envelopes, letterhead paper...
- Post cards, flyers
- Destination & return addresses
- Slogans & customized messages
- Logos/graphics/pictures
- Codes (bar codes, 2D codes, QR codes..)
- Pre-paid/Permit marks

Mail Management Software

- Facilitates the database management (preparation, multi-criteria selection, deletion of duplicates & inaccurate addresses) to meet Postal Service standards & means you benefit from the best discounts
- Optimizes your layout with the envelope & document designer
- Gives you full control over the printer: from set-up to production and maintenance tasks
- Compatible with the majority of databases on the market
